

METALLIC PATINA

metallic interior paint

PROTECTIVE
COAT

EASY IN USE

APPLY WITH
BRUSH/SPONGE

USE

Dispersive decorative paint imparting noble, intensive, metallic final shade to the coated surface.

Place of use: walls and ceilings indoors.

Substrate type: plasters, concrete, stone, plasterboards, wood-like and any other sound, previously cleaned and prepared substrates.

PROPERTIES

Forms durable coating; metallic decorative effect; facilitates cleaning; resistant to washing.

TECHNICAL DATA

Temperature of use	from +5 °C to +30 °C
Number of coats	1-3
Time of drying	tack-free surface after approx. 2 h (in lower temperature and higher humidity time can extend)
Application of the subsequent coat	after 4 h
Solvent	water – dilute in 5-10% of water if needed

The product has been given the Hygienic Attest.

APPLICATION

Substrate preparation

The substrate should be appropriately sound, stabilized, free of layers which would impair product bonding, in particular of dust, dirt, lime, oils, grease, residues of paints and other.

If the substrate is inhomogeneous – with many colours or extremely intensive shades, or visible surface repairs – unify the substrate with the use of base coat paint of colour similar to the colour of decoration applied.

Colouring

With FOX DEKORATOR system of tube pigments or in NCS colour scheme – only METALLIC PATINA PLATINUM can be dyed.

Product preparation

The product is delivered ready to use. Mix well before use.

Application

Plan the sequence and technique of application in advance, check the final effect on a small sample first!

FOX DEKORATOR METALLIC PATINA should be applied with a paintbrush, a roller, a spatula or a trowel upon surface approx. 0.3 – 0.5 m² large. Start to form the decorative effects immediately after. The effects creation can commence without initial application. The effects depend mainly on decorator's invention and type of tools in use.

CONSUMPTION

Average consumption: approx. 0.03 – 0.05 l/m² per coat. The actual consumption depends on substrate texture and absorptiveness, quality of substrate preparation, expected decorative effect, technique of application, user's experience, number of coats.

IMPORTANT ADDITIONAL INFORMATION

- Clean the tools with water just after use.
- Keep out of reach of children. Avoid contact with skin and eyes. After direct contact with eyes – wash with plenty of water and contact a doctor, Wear protective gloves/protective clothing/eye protection/face protection. If swallowed: Immediately call a doctor, show package or label. Follow the instructions of the Safety Data Sheet.
- Keep in tightly sealed containers in dry conditions. Protect against overheating and freezing. Shelf life in conditions as specified is 24 months from the production date shown on the packaging.

PACKAGING

Plastic containers: 0.3 l, 1 l
